

Summary of Performance Table

Key Indicators	Description	Result
Total # of earthquake victims given access to medical services	Population size	111,832
Total # of earthquake victims receiving medicines, medical supplies or services	Total # Victims Treated	18,508
	In Hospitals	2,398
	By Mobile Medical Team	16,110
	In Remote Villages	9,138
Total # of earthquake victims receiving physiotherapy treatment	# of Earthquake Victims	176
Total # of patients treated disaggregated by gender and age	Male	10,149
	Female	8,357
	Children < 5 years	3,108
	Elderly > 60 years	2,047
Total # of vulnerable patients treated (pregnant women, infants, disabled, chronically ill)	# of Vulnerable Patients	N/A
Total # of pre-existing hospitals supported by CMAT teams	# of Hospitals	3
Total # of earthquake affected areas serviced by CMAT teams	# of Union Councils	10
	# of Villages	22
	# of Tented Camps	18
Total # of remote areas serviced by CRF mobile medical teams (including BHUs)	# of Remote Villages	25
Total # of CRF supported field hospitals or established clinics in the earthquake area	# of Field Hospitals	3
	# of Clinics	40

Total # of Basic Health Units (BHUs) supported by CMAT teams	# of BHUs	4
Total # of CMAT members deployed	To Hospitals	46
	To Mobile Clinics	31
	To Physio team	24
Total # of local hospital staff trained by CRF in emergency and primary care	# of Trained Staff	12
Total # of local staff trained as physiotherapists	# of Trained Staff	17
